

GOVERNMENT COLLEGE FOR WOMEN (AUTONOMOUS) SRIKAKULAM

**Reaccredited by NAAC with 'A' Grade 3rd cycle CGPA 3.09
ESTD:1968(Affiliated to DR.B.R.Ambedkar University)**

TITLE: TEAM WORK Based learning

OBJECTIVE:

- To Develop critical thinking and problem – solving skills
- To enhance leadership skills and team work skills

CONTEXT:

Team based learning is an educational approach that involves students working in teams to achieve specific learning objectives. It helps to foster collaboration, trust and communication among team members.

This type of practice helps students :

- To learn and retain information more effectively through collaborative learning
- Helps to analyze complex problems ,think critically and develop solutions to a given problem

THE PRACTICE :

The department of Computer Science and Applications at Government College for Women(A), Srikakulam fosters this method of approach as computer science projects often involve complex problem solving, requiring students to work together to design, develop and test solutions and most of the tech industries emphasizes the importance of teamwork, collaboration and communication skills in software development, and IT fields. This type of learning approach helps the students to prepare for real world scenarios where they need to work as teams to develop apps and other technology solutions.

EVIDENCE OF SUCCESS:

The skills of the students improved over the time period. The students got better communication skills ,critical analysis & subject skills over the period of time.

Problems Encountered and Resources Required:

Ensuring the students form a team from different background and abilities without bias is very challenging.
